LANGUAGES

Portuguese Native or Bilingual

English C2 - Proficient

SKILLS

Frontend

React · Next.js · TypeScript · JavaScript ·
HTML · CSS

Backend

Node.js · Express · Python

Cloud & DevOps

Kubernetes · Docker · NGINX · MinIO (S3)

Databases

MongoDB · PostgreSQL · ClickHouse

INTRODUCTION

Software engineer with 7+ years of experience building modern web applications, with a strong focus on frontend development using React. Versatile across the full stack with hands-on experience in Node.js, REST APIs, and cloud-native systems. Skilled at integrating complex APIs and collaborating with cross-functional teams, with a focus on usability, performance, and clean architecture.

WORK EXPERIENCE

Software Engineer

November 2024 - Present

EVS Broadcast Equipment

Full-time (hybrid)

- Develop product features for professional broadcast workflows across React/TypeScript frontends and a GraphQL Backend-for-Frontend
 - Full-stack development for XR and sustainable streaming platforms
 - Worked with React, Next.js, TypeScript, Node.js, Docker, Kubernetes, Python
- Key projects:** Cerebrum · XR platform

Software Engineer

October 2021 - October 2024

MOG Technologies

Full-time (hybrid)

- Led technical coordination and mentored team members across multiple EU web and streaming platforms
 - Built full-stack features and contributed to architecture and API design for dashboards and media workflows
 - Technical coordinator and full-stack developer for TRUE, a school-newspaper CMS used by 200+ schools and 2,000+ users
 - Worked with React, TypeScript, Node.js, Strapi, MongoDB, Docker, and Unity
- Key projects:** school newspaper CMS · film-education platform · sports streaming platform · Unity multiplayer game

Software Engineer

January 2020 - September 2021

MOG Technologies

Full-time (remote)

- Built full-stack features for live-video and data-driven platforms (dashboards, workflows, REST APIs)
 - Supported team members through code reviews and technical guidance
 - Worked with React, TypeScript, SASS, Node.js, Strapi, PostgreSQL, and Docker
- Key projects:** crowd journalism web platform · blockchain enabled licensing marketplace · public project web portal

Junior Software Engineer

January 2019 - December 2019

MOG Technologies

Internship (on-site)

- Developed a web-based messaging and notification system for journalists as part of my Master's thesis (**Grade:** 18/20)
- Worked with HTML5, CSS, JavaScript, Node.js and PostgreSQL

EDUCATION

Integrated Master in Informatics and Computing Engineering

Faculdade de Engenharia da Universidade do Porto

September 2014 - July 2019

Grade: 16/20
